

WeUP — Modern Ticketing Without the Hidden Fees

- A white-label ticketing platform for creators, venues, and promoters.
- Full control over pricing, branding, and customer data.
- SMS + QR-native workflow designed for real-world events.

The Problem

- Ticketing platforms charge opaque and stacked fees (10–20%+ effective).
- Organizers lose margin and customer ownership.
- Promoter tracking and payouts are fragmented or manual.

The Opportunity

- Live events are growing across local, independent markets.
- Creators want brand ownership and margin control.
- Promoters need transparent revenue tracking.

Fee Comparison Example — \$50 Ticket

Platform	Total Fees	Organizer Keeps
Eventbrite	\$5.35	\$44.65
Ticket Tailor	\$2.35	\$47.65
Yapsody	\$3.22	\$46.78
WeUP (7%)	\$5.25	\$44.75

Why WeUP Wins

- Customizable fee structure per event.

- Built-in promoter referral tracking and earnings visibility.
- SMS ticket delivery with QR-based door validation.
- Full ownership of customer data and branding.

Promoter Economics

- Unique promoter codes tied to ticket sales.
- Real-time earnings dashboard.
- Automatic split calculation and payout tracking.

Operational Flow

- Customer buys ticket via Stripe checkout.
- Instant SMS ticket delivery with QR.
- Door scan validates in real-time.
- Analytics dashboard updates immediately.

Revenue Model

- Platform fee (configurable 5–10% typical).
- Optional flat per-ticket fee.
- Premium analytics and promoter tools.
- Enterprise white-label licensing.

Go-To-Market Strategy

- Target local event promoters and independent venues.
- Launch pilot events to demonstrate margin savings.
- Expand through promoter referral networks.

Vision

- Own your event. Own your margin. Own your audience.
- WeUP transforms ticketing from a tax into a tool.
